

# **Strategies for Radiological Characterisation in Decommissioning of Nuclear Facilities**

**A task group within the  
OECD/NEA/RWMC/WPDD**

**2011-2013**

# Main objective

## Develop a NEA WPDD STATUS REPORT on

Selection and tailoring of strategies for radiological characterisation and its importance for safe decommissioning of nuclear facilities.

- Identify best practice
- Identify areas for further international cooperation

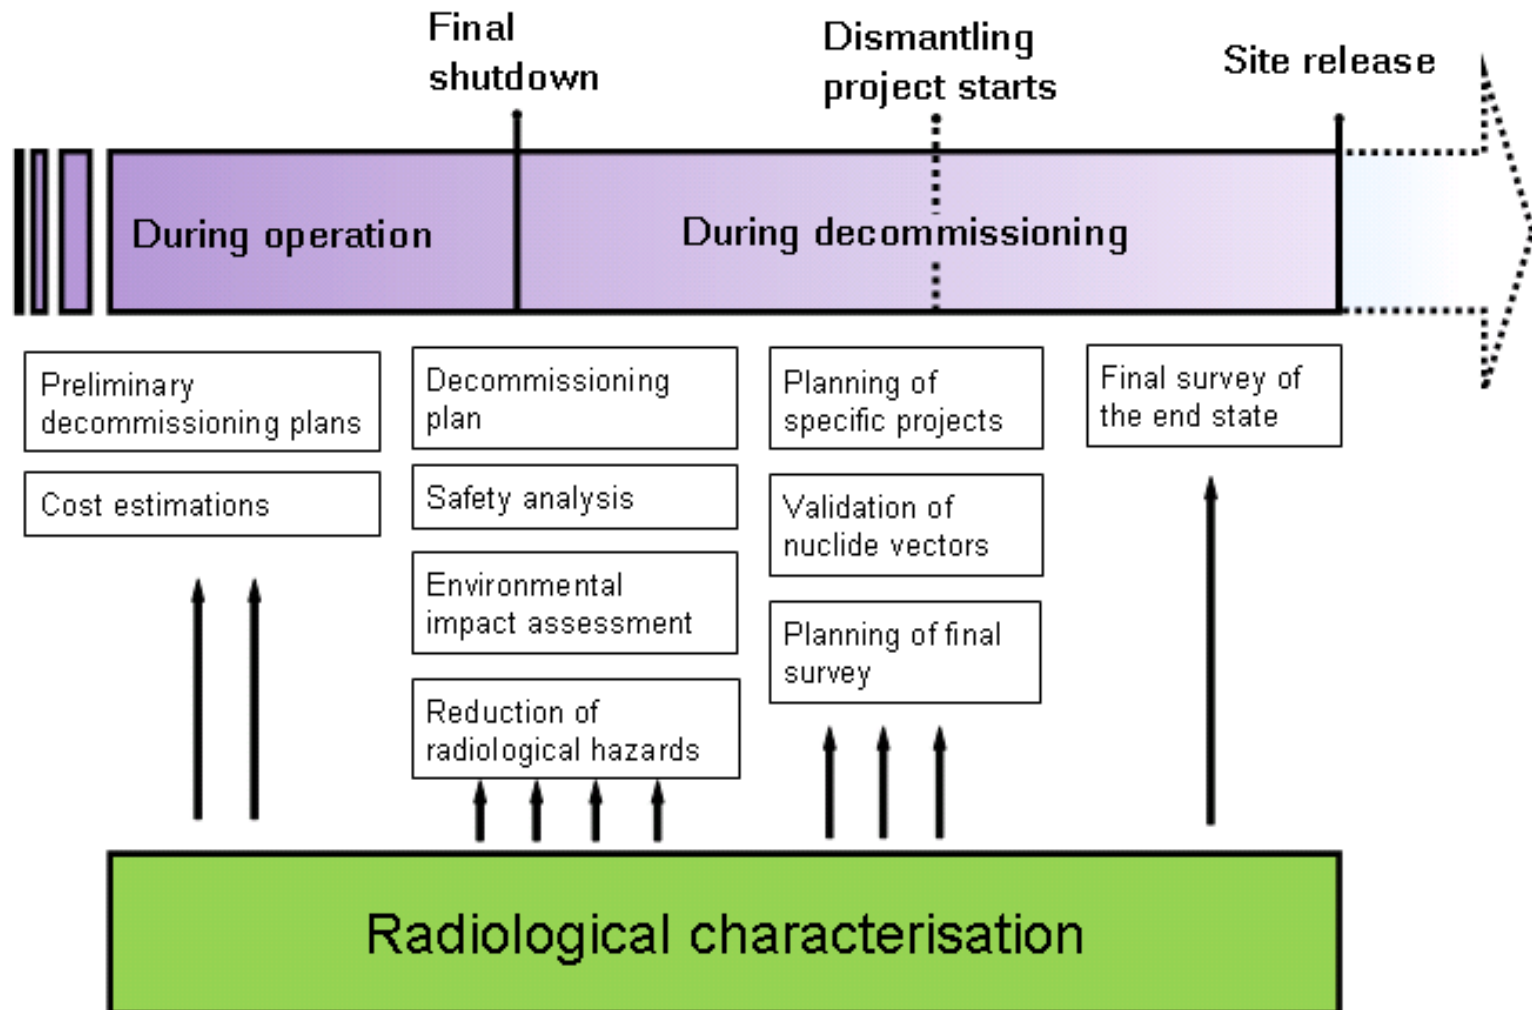

## Project team

### Task group

Representing Sweden, France, Germany, Spain and UK

### Corresponding members

from France, Japan, Sweden, UK and USA

## RCD Activities

- ✓ Questionnaire on current strategies and procedures for characterisation
- ✓ Bibliography with reference descriptions and links to web sites and documents
- ✓ Topical session at WPDD-12
- Workshop April 2012, Sweden
- Evaluation of information gathered during workshop
- Further work on selected topics
- RCD final report (early 2013)
